OPERATIONS LEADER

Operations Executive with 10+ years driving efficiency, cost savings, and team excellence across complex logistics environments. Proven track record implementing systems, building high-performing teams (80+ employees), and delivering measurable operational improvements. Expertise in process optimization, TMS implementation, supply chain coordination, and strategic problem-solving.

PROFESSIONAL EXPERIENCE

Founder & Operations Consultant | Transcend Logix Consulting | 2024 - Present

Drive operational efficiency and cost optimization for logistics and supply chain clients across multiple industries. Specialize in process improvement, systems implementation, fleet optimization, and team scaling.

- Advise clients on TMS selection, warehouse operations, and supply chain restructuring
- Develop and implement Standard Operating Procedures (SOPs) to streamline operations and reduce costs

National Transportation Manager | CES Power | Memphis, TN | 2022 - 2024

Led logistics operations for large-scale event management companies supporting major entertainment and sports events. Managed end-to-end transportation coordination and team of 80+ employees across multiple departments.

- Achieved 98% on-time delivery rate while managing complex, time-sensitive logistics for major events (Super Bowl, Fox Sports broadcasts, major concert tours)
- Saved \$240,000 on insurance renewal through development of comprehensive insurance documentation and robust SOPs
- Implemented Transportation Management System (TMS) across all operations, improving tracking and coordination
- Oversaw logistics and department development across 12+ satellite branch locations

Director of Operations | Larkin Express & International | Chattanooga, TN | 2019 - 2022

Managed day-to-day logistics operations for domestic and international freight companies. Coordinated cross-functional teams including warehouse, dispatch, and customer service.

- Trained and developed multiple departments on logistics software, operational procedures, and continuous improvement strategies
- Managed warehousing, port coordination, and specialized problem-solving to resolve operational challenges efficiently
- Coordinated opening of 6 new logistics branch locations with full operational setup and staffing

CORE COMPETENCIES

Operations Management • Process Improvement • TMS Implementation • Cost Optimization • Transportation Planning • Warehouse Management • Team Leadership (80+ employees) • SOP Development • Supply Chain Coordination • Fleet Management • Systems Integration • Data-Driven Decision Making • Cross-Functional Leadership • Project Management

EDUCATION

Bachelor of Science in Industrial Leadership | Jacksonville State University | 2014
